

ARE YOU ELIGIBLE FOR A SCHOLARSHIP IN 2023?

This document provides you with the information you need to see whether you qualify for either an Entrance Scholarship, or a Vice-Chancellor's Scholarship, if you are admitted to UCT in 2023.

General conditions

1. Faculties offer two kinds of undergraduate scholarships: Entrance Scholarships, for new undergraduate students, and Faculty Scholarships for returning students.
2. Faculties use different criteria and methods to identify scholarship recipients. The value of the entrance scholarship may vary and is reflected in the respective faculty section below.
3. The number of awards is limited. Awards are made on the criteria detailed below. There is no application process for these awards.
4. Faculties make awards using information provided in applications for admission and academic achievement in the previous year.
5. a) **Entrance Scholarships** are awarded to applicants on the basis of National Senior Certificate (NSC) achievement in open and redress pools. For Entrance Scholarships, redress is determined by an applicant's disadvantage factor.
b) **Faculty Scholarships** are awarded to returning students on the basis of academic achievement in open and redress pools. For Faculty Scholarships redress is determined by self-declared racial identity.
6. An applicant or student who is entitled to staff tuition rates, will have the record of the award noted on their transcript, but the amount paid into the fee account will be a pro-rated percentage of the standard award.

General conditions applicable to Entrance Scholarships

7. **Entrance Scholarships** are for undergraduate students who are applying to enter UCT for the first time, and are for the first year of academic study.
8. Except in the BAS and in the performing and creative arts where audition and portfolio rankings are considered, **Entrance Scholarships** are guaranteed to applicants who attain the published faculty threshold levels.
9. Unless otherwise stated, eligibility for all **Entrance Scholarships** is restricted to South African citizens and to South African permanent residents.
10. **Entrance Scholarships** may be withdrawn entirely if a recipient cancels their academic registration before writing mid-year examinations (recipients who cancel registration after writing the mid-year exams will receive half the scholarship value).
11. **Entrance Scholarships** are valid for the year of admission for which the offer is made. Applicants deferring their studies will need to meet the published threshold level for the year in which they register. Faculties may rollover an Entrance Scholarship offer for applicants who take a 'Gap year'.
12. A small portion of the faculty's allotted amount for Entrance Scholarships is set aside to be awarded at the dean's discretion and may be used for awards to applicants holding international school-leaving qualifications.

Faculty Points Score (FPS) and subject score thresholds for the award of an Entrance Scholarship in 2023

Faculty of Commerce

The value of the entrance scholarship is R20 000.

Category	FPS	NBT – AL	NBT – QL	NBT MATHS
Open	Minimum of 540	Proficient	Proficient	Proficient
Redress Category 1 & 2 applicants with a disadvantage factor greater than 1	Minimum of 480	Proficient	Proficient in either QL or Maths	

Faculty of Engineering & the Built Environment

1. The Faculty of Engineering & the Built Environment awards Entrance Scholarships to South African citizens and permanent residents, as well as international applicants doing the South African NSC, based on the applicant's final Faculty Points Score (FPS).
2. Entrance Scholarships will be awarded to 80% womxn and transgender applicants and 20% male applicants in all programmes excluding the Bachelor of Architectural Studies (BAS).
3. Ten Entrance Scholarships will be awarded in competition to candidates in the Bachelor of Architectural Studies (BAS).
4. Entrance Scholarships will be to the value of R60 000 each.

Faculty of Health Sciences

1. Entrance Scholarships may be offered to NSC applicants, with due consideration for #4 below.
2. The number of scholarships awarded is dependent on the number of eligible applicants and faculty budget allocation.
3. The number of scholarships awarded is pro-rated based on the planned enrolment for each FHS programme.
4. The Dean may identify and make additional discretionary awards, including to top-achieving applicants doing non-NSC school examinations.

Principles:

- a. Applicants for Entrance Scholarships are selected based on merit and disadvantage (hence, Weighted Point Score (WPS) are used to rank all applicants).
- b. Applicants are further selected to enhance classroom diversity (hence, using redress categories to ensure equity).
- c. Applicants will be ranked according to their WPS in either the Grade 11 Final or Grade 12 Term 3/Trial results (the better of these two sets of results will be used) in each redress category.
- d. The rationale for using either Grade 11 Final or Grade 12 Term 3/Trial results: both examinations are based on a full year's work and give a better understanding of the applicant's academic performance.
- e. Awards will be given to the highest-ranked eligible applicants who hold conditional offers of admission.
- f. Awards will be made in October of each year.
- g. The Faculty will honour the scholarship offer, once we confirm the conditional offer, notwithstanding the rank position of the applicant in the final NSC results.
- h. Applicants who have already completed schooling (e.g. a 2021 school-leaver on a gap year) are eligible for consideration and will be assessed on NSC final results.

Allocation:

- a. In 2023, we will make 22 entrance scholarship awards at R40 000 per award.
- b. The top performing applicant will be selected from each redress category listed below.
- c. The allocations will be split as follows:

Redress Category	Programmes				
	MBChB	BSc Physiotherapy*	BSc Occupational Therapy*	BSc Speech-Language Pathology	BSc Audiology
Number of awards to be made					
1	4	1	1	1	1
2	3	1	1	1	1
3	2	1	1	0	0
Open	2	0	0	0	0
Total	11	3	3	2	2

*One additional award will be allocated to either Physiotherapy or Occupational Therapy taking into consideration differences in class size, which may vary from year to year.

Faculty of Humanities

Entrance Scholarships worth R40 000 each are awarded proportionally across three qualification groups as follows:

1. Bachelors of Arts (BA), Social Science (BSocSc) and Social Work (BSW) (70%)
2. Extended degree programmes in BA and BSocSc (10%)
3. Degree programmes in the performing and creative arts (20%)

Eligibility is restricted to South African citizens and permanent residents seeking admission as undergraduate students for full-degree, full-time study. Awards are also made to address historical and socio-economic disadvantage to South African applicants in the Redress category.

1. Bachelors of Arts, Social Science and Social Work (BA, BSocSc¹, BSW)

Entrance Scholarships in this category acknowledge and reward excellent performance in the National Senior Certificate (NSC) examinations. Awards are made to first-time entering applicants and will be made to applicants who achieve the following FPS and NBT scores².

Category	Eligibility	Criteria
Open	All SA applicants	FPS: 525 (87.5% average) or above NBT: Proficient in Academic Literacy (AL) test
Redress	Applicants with a disadvantage factor from 1.01 to 1.1 (i.e. up to 10% of the FPS)	FPS: 495 (82.5% average) or above NBT: Upper Intermediate in Academic Literacy (AL) test

2. Extended degree programmes in BA and BSocSc

Entrance Scholarships in this category acknowledge and reward excellent performance in the National Senior Certificate (NSC) examinations. 10% of scholarships in this category will be allocated competitively on the basis of academic merit to first-time entering applicants. Awards are made by the Dean on the recommendation of the programme convenor and the Faculty Admissions Committee (RFAC).

3. Degree programmes in the creative and performing arts

Entrance Scholarships in this category acknowledge and reward National Senior Certificate (NSC) examination and creative or performance excellence. The scholarships are divided among three areas on a pro rata basis and at least 50% of the awards must be to applicants in the identified redress categories. Awards are made to applicants by the Head/Director of the Department/School/College on the advice of a selection panel. Awards are made to first-time entering applicants or to transferring students who have been assessed by the Department/School/College as having excellent potential. Offer of a scholarship will fall away if a student subsequently registers for a qualification outside of one of the performing and creative arts degree programmes.

3.1 Bachelor of Arts in Fine Art (BA(FA))

Applicants are considered for an Entrance Scholarship on the basis of their portfolio rating. Portfolios are rated A, B+ or B and applicants are ranked, and awards made to the top applicants in descending order. Where two applicants perform similarly in a portfolio submission, their NSC and NBT scores are taken into account.

3.2 Bachelor of Arts in Theatre and Performance (BA(TP)); Diploma in Theatre and Performance; Advanced Diploma in Theatre

¹ This includes the BSocSc (Philosophy, Politics and Economics).

² Faculty Points Score and National Benchmark Test respectively.

Applicants to both the degree and diploma programmes are considered for an Entrance Scholarship on the basis of their audition performance, NSC results, and NBT scores (all three of which are equally weighted).

In allocating scholarships, consideration is also given to equity (with specific reference to the Redress category) and to achieving an appropriate balance between the various streams and specialisations in the degree programme.

3.3 Bachelor of Music (BMus); Diploma in Music Performance; Advanced Diplomas in Opera and Music

Applicants are considered for an Entrance Scholarship on the basis of their musical ability as evidenced in the audition performance. Auditions are rated A, B+ or B and applicants are ranked, and awards made to the top applicants in descending order. Where two applicants perform similarly in an audition performance, their NSC and NBT scores are taken into account, along with any recommendation from the Music teacher.

In allocating scholarships, consideration is also given to equity (with specific reference to the Redress category) and to achieving an appropriate balance between the various streams and specialisations in the degree programme.

4. Dean's Discretionary allocation

5% of the Faculty's Entrance Scholarship allocation is earmarked for awards at the discretion of the Dean. Awards in this category allow for recognition of excellence in non-NSC or international school-leaving examinations.

Faculty of Law

Entering undergraduate students who are South African citizens or South African permanent residents will be considered for Entrance Scholarships. These will be allocated to entering UG applicants who meet the criteria set out in the table below and who register in the Faculty of Law in 2023. The tenure of the award is one year. The value of the entrance scholarship is R20 000. Scholarships are awarded on a competitive basis.

Criteria for awards:

LLB (Undergraduate applicants)

Category	NSC	NBT
All redress categories	WPS \geq 495	Average of 75% for Academic Literacy and Quantitative Literacy
Open	FPS \geq 510	Average of 80% for Academic Literacy and Quantitative Literacy

LLB (Graduate applicants)

Category	GPA
All redress categories	70% for previous undergraduate degree
Open	77% for previous undergraduate degree

Faculty of Science

Scholarships are available under the Science Entrance Scholarships Scheme, which acknowledges and rewards excellent performance in the National Senior Certificate (NSC) examinations and aims to attract the top students into the Faculty of Science.

Students are encouraged to apply early for provisional acceptance into the Faculty of Science.

Entrance Scholarships will be awarded to students who meet the criteria set out in the table below and who register in the Faculty of Science in 2023 (note that a limited number of scholarships will be reserved for top South African students writing international examinations):

<ul style="list-style-type: none">South African applicants with a minimum Faculty Points Score (FPS) of 720 and $\geq 80\%$ for Mathematics in the final NSC examinations	<ul style="list-style-type: none">Level 1 scholarship (R40,000; $\text{FPS} \geq 740$)Level 2 scholarship (R20,000; $\text{FPS } 720\text{-}739$)
--	--

Scholarships will be confirmed on registration in February 2023 and are only awarded for the first year of study. Faculty Scholarships to the value of R20,000 in each of second and third year may be awarded where the criteria for renewal are met, including achieving a GPA of at least 80% (the GPA cut-off level may be higher due to the number of students who meet the criteria and the scholarship budget allocation).

Vice-Chancellor's Scholarships:

- are valued at R100 000 per annum
- are valid for three years, subject to being named on the Dean's Merit List in your faculty, at the levels specified by your faculty; for applicants who do not qualify for renewal, the scholarship is valid for the first year of study only
- are not awarded in addition to entrance scholarships or, in subsequent years of study, to faculty scholarships
- are awarded at a pro-rated value for any student qualifying for staff tuition rates
- are not payable, and, where already paid, may be refundable, where students enrol in 2023, and then withdraw their registration for whatever reason

A Vice-Chancellor's Scholarship will be offered to you if:

- you are among the top ten Mathematics, English or Computer Science Olympiad winners in 2022
- you attend a Western Cape Education Department (WCED) school in 2022, and when you write the NSC examination you are among the top 10 applicants in this category applying for admission to UCT in 2023
- you attend school outside of the Western Cape, write the NSC administered by the Department of Basic Education, and are among the top 15 applicants in this category applying for admission to UCT in 2023,
- you attend an Independent Examination Board (IEB) school and write the NSC in 2022, and you are among the top five 2023 UCT applicants in this category.

Process of awarding scholarships

Scholarships are, in most cases, awarded after the final examination results are received, in January 2023. If you are awarded a scholarship, you will receive correspondence informing you of your award.
