

MPTECH MECHANICAL LINER PROFILE GAUGE

MPTech currently has new stock of their mechanical liner profile gauges. The gauges use aluminium pins to trace a profile of your installed or new liner/lifters. Once the profile is obtained the measurements can easily be transferred to a spreadsheet template (supplied) for further calculations.

Standard Gauge Specifications: (customisable to suit specific liner configuration)

Gauge material: HDPE and anodised aluminium

Effective Body Length: 600 mm

Effective Leg Length: 250 mm

Effective Pin Length: 300 mm

Number of pins: 60

Capabilities:

The gauge enables accurate determination of

- Liner / lifter wear profiles
- Lifter height (for use in MillTraj software)
- Lifter face angle (for use in MillTraj software)

** The gauge is supplied with a convenient carry bag, and will be couriered to your location.*

** Instructions and an Excel data template are also included.*
