Sustainable Urban Practice

Masters Modules 2026

UNIVERSITY OF CAPE TOWN
IYUNIVESITHI YASEKAPA • UNIVERSITEIT VAN KAAPSTAD

Introduction

The Masters Programme

The complex, multi-dimensional demands of our rapidly urbanising world require holistic, inter-disciplinary thinking and practice. However traditional professional paradigms and often-siloed institutions seem doomed to replicate the entrenched patterns and practices of path-dependent urban infrastructure provision and management. To overcome the often-fragmented ways in which urban questions are framed, institutionalised, and engaged by varied levels of government, citizens, civil society organisations, and private sector actors, we need a new kind of

urban practitioner, who can work across practices, professional norms, hierarchies, sectors and urban problems. The Masters in Sustainable Urban Practice (MSUP) cultivates urban integrators who are able to discern opportunities for integration, and can build the necessary coalitions for change; who are confident in varied cultures of communication and can build bridges between sectors, fields, and scales of urban practice.

For further information on the Masters Programme please visit: www.africancentreforcities.net/ma-in-sustainable-urban-practice/

Continuing Professional Development (CPD)

Modules of this Masters Programme are offered to Continuing Professional Development students as separate certificate courses from which a participant can obtain CPD credits. Courses consist of an intensive week at the University of Cape Town, comprising formal lectures, class assignments and seminars/tutorials.

Who should attend?

This programme is aimed at mid-career urban professionals in either government, civil society, or in the private sector.

Note that a prerequisite for attendance is a NQF level 7 qualification. Applicants should provide a CV when applying. This CV can be emailed to ebe-cpd@uct.ac.za

CPD students will be awarded a digital Certificate of Attendance. For information about digital certification please visit: [Digital certificates | University of Cape Town](#).

University credits will not be awarded for these courses.

Format

Each course is structured in the following way: a week of intensive contact time at UCT, comprising formal lectures, class assignments and seminars/tutorials.

CPD Courses

Urban Food / Urban Health Systems

APG5111Z: 2 – 6 March 2026

Traditionally food insecurity has been seen as a rural challenge, yet thinking of food systems at an urban scale is essential to nourished, healthy Southern cities of the future. The course works from the premise that high levels of urban food insecurity observed across cities of the South are the result of poorly framed and mandated policies, that food insecurity is driven by changes in the food system, and that spatial and structural issues drive urban food insecurity. These challenges are all reinforced in cities where people experiencing food insecurity rely on the market as a means to ensure food availability. The course interrogates the urban food system challenges in cities of the global South, why these challenges exist and persist and the importance of such a focus in rapidly urbanising countries, regions and cities. We explore how the food system intersects with the urban system, why food systems governance is important and engage the multiple governance approaches applied.

Presenter: Dr. Gareth Haysom

5 CPD points, ECSA course code: UCTSUPUFUHS26

Climate Change and the City

APG5107Z: 18 – 22 May 2026

The Sustainable Development Goals and recent Intergovernmental Panel on Climate Change reports recognise that cities have the potential to drive decarbonisation, climate resilience and economic growth. This course aims to familiarise students with climate change and development challenges at the city scale, and to equip them to provide advice and establish workable priorities on development decisions at this scale. To this aim, the course systematically works through how climate impacts, adaptation and mitigation, as well as broader agendas of systemic change intersect with the key dimensions of urban development. Students will engage critically with the two dominant theoretical framings of climate impacts and actions: risk and resilience. Students will develop an understanding of the risks and opportunities posed by climate change to African urbanisation, and by African urbanisation to climate change, as well as the international climate change science-policy-advocacy context influencing the development trajectories of (African) cities.

Presenter: Anton Cartwright

5 CPD points, ECSA course code: UCTSUPCCC26

Creative Cities and Place Identities

APG5113Z: 3 – 7 August 2026

The purpose of this course is to explore the role of culture and creativity in developing more sustainable and just cities in Africa.

Convenor: Dr R Sitas

5 CPD points, ECSA course code: UCTSUPCCP26

Overview

Programme	Sustainable Urban Practice	
Courses and duration	Urban Food / Urban Health Systems: 2 – 6 March 2026 Climate Change and the City: 18 – 22 May 2026 Creative Cities and Place Identities: 3 – 7 August 2026	
Venue	Upper Campus, University of Cape Town	
CPD	CPD points and ECSA codes as indicated per module	
Participants	This programme is aimed at mid-career urban professionals in either government, civil society, or in the private sector.	
Entrance Requirements	Note that a prerequisite for attendance is an NQF level 7 qualification. Applicants should provide a CV when applying.	
Fees*	R18 000.00 (5-day course)	

*The course fee includes course material.

Registration

Registration and Cancellation

- [Register for this course](#)
- Registration covers attendance of all sessions of the course and course material.
- Registrations close one week before the start of the course. Confirmation of registration will be sent on receipt of a registration form.
- **Cancellations must be received one week before the start of a course, or the full course fee will be charged.**
- For more information on application and registration procedures, please visit our website: www.cpd.uct.ac.za

Certificates and CPD Points

A digital certificate of attendance will be awarded to CPD participants. Participants need to attend 80% of the lectures to qualify for an attendance certificate. For further information on digital certificates please visit [Digital Certificates at UCT](#)

CPD participants can also request a formal university transcript, which will show this course as part of a Professional Development Career.

Please note: If you are interested in attending this course for credit purposes, you will need to register for the Masters Programme or as an occasional student. If you attend the course as a CPD participant, credit cannot be claimed in retrospect.
